CABINET D'ETUDE ET DE TRANSPORTS EXCEPTIONNELS  
D'EOLIENNES

Dear Valued Customer,

In this tough economic climate, when the work loads are reducing and in a time, and in a time when everyone dashes into “a big rummage sales”, we would like to remind you that our Companies, **CATEXE s.a.s.**, (industrial material, building materials transports and cranes, and the little sister **CATEOLE s.a.s.**, (wind miles transports) are still here and very much available to service your organisations heavy transport operations in France, and indeed the rest of Europe.

For over twenty three years now, **CATEXE s.a.s.** have produced an unrivalled level of service and quality of work that, in spite of the increasing difficulties involved with the re-organization of the French administrations and the complex alterations of the national and international legislations, have nevertheless stayed focused and diligently coped with pressures in order to continue to supply the industry with the complete group of services:

- **Permits / itinerary/ permanent authorization / § 29 / § 70 / TÜV / and more**
- **Free estimation and price offer**
- **Road surveys**
- **Accessibility and / or feasibility study and report**
- **Private - pilot with national standards and state escort : police / gendarmerie**
- **Freight forwarder**
- **Signs on official norms «Convoi Exceptionnel » Class II /UE**
- **Development of industrial project**
- **Information, consulting, and more**

By providing our industry with all these services, and continually monitoring the daily evolution of the new regulations that control our business, **CATEXE s.a.s.** are now, more than ever, the ideal partner to deal with these important issues, in order to allow transparent and efficient operations of your transport planning.

We look forward to hearing from you in a near future, and assure you that our team are at your full disposal to provide information as necessary. We have the” *Know-How*.

Best regards  
CATEXE Team
